	Pipeline.					
3B	The Green Party of Alberta supports the idea that we should live within our existing pipeline means and thus opposes the approval and construction or expansion of any pipeline the purpose of which is to transport tar sands production from Alberta.	Replace tar sands with bitumen (friendly)	Passed	15	3	2
3C	Although the matter is largely within the jurisdiction of the federal government, the Green Party of Alberta supports the tightening up of all laws and regulations concerning the transport by train of tar sands production and all other hydrocarbons and dangerous goods.	Add 'including by train' instead of 'by train' Change tar sands to bitumen (friendly) Main Motion	Passed	22	9	1
4	That the Green Party of Alberta supports introduction of a sales tax for Alberta.		Passed	19	2	2
5	That the Green Party of Alberta supports inclusion of basic dental care – regular checkups, teeth cleaning and treatment of problems detected – in the services provided by AHS.	Remove regular checkproblems detected (friendly) Replace provided by covered (friendly) Amended: That the Green Party of Alberta supports inclusion of basic dental care in the services covered by AHS.	Passed	21		1
6	The Green Party of Alberta supports changes that would see the cost of prescription drugs covered by our provincial healthcare program. The Green Party recognizes that the costs to government of providing pharmacare will be less if implementation of this program is put in place and coordinated across the country. For example, the provinces will be able to get a better price on many drugs if they		Passed	20		2

province. Accordingly, the Green Party strongly supports a pan-Canadian approach to implementation of pharmacare but wants to see the province of Alberta show leadership on this issue. 7 Alberta Greens would provide funding for visits to professionals who specialize in giving advice on how to live healthier lifestyles in order to help people avoid or alleviate avoid chronic diseases and conditions. 8 The Green Party of Alberta supports policies aimed at ensuring there is sufficient affordable and appropriate housing to meet the needs of all Albertans. 9 The Green Party of Alberta supports policies aimed at ensuring there is sufficient affordable and appropriate housing to meet the needs of all Albertans. 9 The Green Party of Alberta supports the new small house philosophy and will develop policies to help accommodate this style of housing. 10 Adopt a building code for straw and earth structures. 11 A Green Party government will revise and update the current provincial social housing regulations, and will develop a long-term capital plan for additions to and maintenance of that portion of the social housing regulations, and will develop a long-term capital plan for additions to and maintenance of that portion of the social housing regulations, and will develop a long-term capital plan for additions to and maintenance of that portion of the social housing regulations, and will develop a long-term capital plan for additions to and maintenance of that portion of the social housing regulations, and will develop a long-term capital plan for additions to and maintenance of that portion of the social housing stock that is owned by the Province and

12	The GPA calls for imposition of a (modest) "accessible housing levy" on all real estate transactions in the province to ensure there are funds to support the commitment to provide sufficient affordable and appropriate housing to meet the needs of all Albertans. All revenues collected from this levy would go towards the provision of accessible housing which means towards social housing (free to those with no money and available for lower than market rent to those who can afford to pay some rent) and for purchase housing for those who can afford to buy but not at current				
13	market rates. The Green Party of Alberta supports amending the Alberta Human Rights Act to require prospective employers to eliminate names, gender, and age from initial hiring and application processes in order to reduce discrimination.		Passed	20	3
14	Under a GPA government the province will provide the academic, social and structural requirements for students in the public system. Curriculum planning and implementation will be the responsibility of the teachers, the principals and the schools.	Add curricular after social and change curriculum planning to lesson planning	Workshopped	12	9
15	Children will rarely be subjected to any type of testing before Grade 9. Instead teachers will be responsible for and communicate frequently their assessment of students' understanding and progress in each course. That the Green Party of Alberta begin				

	developing a public social networking			
	platform to eventually provide Albertans with			
	a viable alternative to foreign- and privately-			
	owned platforms such as Facebook and			
	Instagram.			
17	Project applications (for pipelines and types of			
	projects) must include evidence of pre-			
	application stakeholder involvement in project			
	planning, using an appropriately structured			
	multi-stakeholder advisory committee.			
18	The Green Party of Alberta vigorously			
	opposes all P3 initiatives.			
19	The density of all linear developments (roads,			
	utility corridors, pipelines, railways, power			
	lines, telecom infrastructure, right of ways,			
	etc.) within a watershed must be assessed and			
	regulations must be developed to eliminate the			
	harm perpetrated by these interventions.			
	Switchbacks, vegetative margins, reclamation			
	can lessen the negative impact.			
20A	Alberta has an important stake in the Canada-			
	European Union Comprehensive Economic			
	and Trade Agreement (CETA). Alberta			
	Greens demand that Albertans have a voice in			
	all aspects of CETA that have potential to			
	impact this province.			
20B	The Green Party of Alberta supports the			
	public bodies, such as municipalities and			
	school boards, which have asked to be			
	exempted from CETA.
